## TEST REPORT No. 401/20

Page : 1/3

**Customer:** CBVIT Ltd.  
**Order No.:** o ZL23012020  
**Project manager:**  
**Project:**  
**Project No.:** 806196233000  
**Location:**  
**Sampling:** customer  
**Dates of performance of the test:** 23.01.20 -29.01.20

**CBVIT Ltd.**  
**Crown House**  
**27 Old Gloucester Street**  
**WC1N 3AX London**  
**United Kingdom**

The results of this test report relate only to the items tested.

The test report shall not be reproduced except in full, without written approval of the laboratory.

The laboratory holds responsibility only for the results in the sample taken by customer.

Sample ID	Client sample	Matrix	Date sampled	Date received
846/20	CBVIT Active Hemp Oil CBD 16%	hemp oil	-	23.01.20

# TEST REPORT No.: 401/20

Parameter		Unit	CBVIT Active Hemp Oil CBD 16%
			<i>U.</i>

U. - Uncertainty of measurement is expressed as double the standard uncertainty and characterizes the interval value in which it is possible to expect the real value with a probability of 95%.

This uncertainty does not include sampling uncertainty and is not stated for results below the detection level.

A - accredited method

N - non-accredited method

AF (Flexible scope of accreditation): The laboratory is allowed to make a change of the test method regarding the scope of parameters tested, subjects of tests and method performance in the given fields of accreditation provided that the measurement principle is the same.

## Information on specific test conditions or deviations from, additions to, or exclusions from the test method :

n.d. = <0,005 w/w %

Approved on behalf of the laboratory :  
Manager quality - Ing. Olga Ja aninová

Done in Prague : 29.1.2020
